Softkey Operation
Softkey operation provides an easy way for direct access to the most important functions. The advanced three-button menu system with current status and function selection appears on the display for visual confirmation.

Switchable Key Illumination
For better car integration the user can choose between 3 different key illuminations (red/green/mixture of red+green).

Software Access Menu (SAM)
"Software Access Menu" is an easy way to personalize your car radio according to your choice and install all possible optional applications.

Sound Presets
With the 4 different sound presets (Flat-Class-Pop-Rock) the user can adjust the sound frequency to his preferred music genre.

Bass Boost System (BBS)
Boosts the bass out of the set! This function is selected via a direct key access. 3 levels of effect can be chosen according to your preference.

Telephone Mute
Automatic mutes the set when you receive a call.

Detachable Flipdown Front
For theft protection, the complete front of this car radio is detachable and flips down to access the CD drive for inserting and changing a CD.
